

DESIGN SYSTEM & BRAND GUIDELINES

argi.®

Crafting Identities *That Last*

A unified technical and creative design framework for progressive visual identities, tactile digital artifacts, and resonant editorial systems.

STUDIO BASE

Bali, Indonesia (UTC+8)

DISCIPLINE

Branding & Web Direction

RELEASE STATUS

Production Specification

● STUDIO FOUNDATIONS

Brand Identity & Creative Ethos

ARGI Studio operates at the intersection of radical craft, Swiss-inspired typographic discipline, and warm editorial sensibilities.

STUDIO MISSION

To architect enduring visual languages and digital flagships that elevate ambitious brands beyond transient industry trends. We marry the tactile authenticity of archival printmaking with high-performance digital engineering.

"Directing progressive visual languages and resonant digital artifacts."

CORE PRINCIPLES

- 1. Radical Restraint:** Eliminating extraneous UI ornament to allow typographic weight, negative space, and visual artifacts to command focus.
- 2. Tactile Materiality:** Grounding modern digital surfaces in paper textures, blind debossing aesthetics, and tangible print craft.
- 3. Fluid Precision:** Designing mathematically rigorous responsive typography that adapts seamlessly from ultra-wide displays to mobile viewports.

● BRAND MARK ANATOMY & CLEARSPACE

CLEARSPACE & MINIMUM SCALE

Always maintain a clear exclusion zone around the studio wordmark equal to 50% of the letterform height ('X-height'). The minimum digital rendering height is **20px** on mobile viewports and **24px** on desktop headers. Never alter proportions, skew, or apply drop shadows.

● CHROMATIC ARCHITECTURE

Color Palette & Semantic Roles

A curated palette prioritizing warm, low-eyestrain gallery backgrounds paired with deep contrast inks and high-signal accent hues.

Gallery Cream
#FBFBFA
Primary canvas background for daylight reading.

Obsidian Black
#0D0D0D
Primary display typography & interactive actions.

Terracotta Accent
#E05342
Active states, badges & editorial emphasis.

Amber Signal
#D97706
Category metadata, numbers & studio badges.

● SEMANTIC TOKEN MAPPING

CSS VARIABLE TOKEN	HEX / HSL VALUE	SEMANTIC APPLICATION
--bg-body	#fbfbfa	Main page canvas surface across sections
--bg-dark	#050505	Selected Work portfolio section & dark callouts
--text-primary	#0d0d0d	High-contrast headline & body reading copy
--text-secondary	#5a5a57	Subheadlines, narrative paragraphs & labels
--border-light	rgba(0, 0, 0, 0.08)	Subtle hairline structure & card dividers
--accent-emerald	#10b981	Studio availability badge & success confirmations

● TYPOGRAPHIC HARMONY

Font Families & Fluid Scale Spec

A three-tier typographic engine pairing literary serif display titles with clean geometric sans body copy and monospaced technical indexing.

DISPLAY SERIF – INSTRUMENT SERIF (REGULAR & ITALIC)

Architecting Progressive Brand Identities & *Tactile Artifacts*

BODY SANS – PLUS JAKARTA SANS (300, 400, 500, 600, 700)

The quick brown fox jumps over the lazy dog. A bespoke approach to creative direction, delivering memorable brand identities that articulate a distinct point of view.

INDEX MONO – SPACE MONO (REGULAR & BOLD)

01 / BRANDING • 02 / DIGITAL FLAGGSHIP • LAT: -8.4095° S • LNG: 115.1889° E

● RESPONSIVE BREAKPOINT HIERARCHY

HEADING LEVEL	DESKTOP (>1024PX)	TABLET (768PX-1024PX)	MOBILE (≤640PX)	LINE HEIGHT
Hero H1 (Page Title)	clamp(3.25rem, 7vw, 5.75rem)	clamp(2.65rem, 6.2vw, 4.25rem)	40px	1.02 – 1.06
Our Ethos Statement	clamp(2.15rem, 3.8vw, 3.25rem)	clamp(1.75rem, 3.4vw, 2.5rem)	clamp(1.45rem, 5.5vw, 1.85rem)	1.16 – 1.25
Section Titles (H2)	clamp(2.15rem, 3.8vw, 3.25rem)	clamp(1.75rem, 3.4vw, 2.5rem)	32px	1.16 – 1.20
Subsections (H3)	clamp(1.4rem, 2.2vw, 1.85rem)	clamp(1.25rem, 2vw, 1.55rem)	clamp(1.2rem, 4.5vw, 1.45rem)	1.25
Card Headlines	1.35rem (~21px)	1.25rem (~20px)	1.15rem (~18px)	1.30

● COMPONENT ARCHITECTURE

Interactive Elements & State Models

Reusable atomic components designed with magnetic physics, tactile feedback loops, and crisp hairline geometry.

1. BUTTON SYSTEM

Initiate Project

Copy Email

Pill-shaped action buttons with magnetic hover physics and animated trailing circle arrow transitions.

2. SCOPE TAGS & PILLS

✓ Brand Identity

Web Design

Interactive discipline tags for client commission customization with instant checkmark state toggles.

3. MINIMALIST INPUTS

Brand / Organization Name

Hairline input frames with high-contrast active borders and smooth floating label transitions.

4. FROSTED GLASS NAVBAR

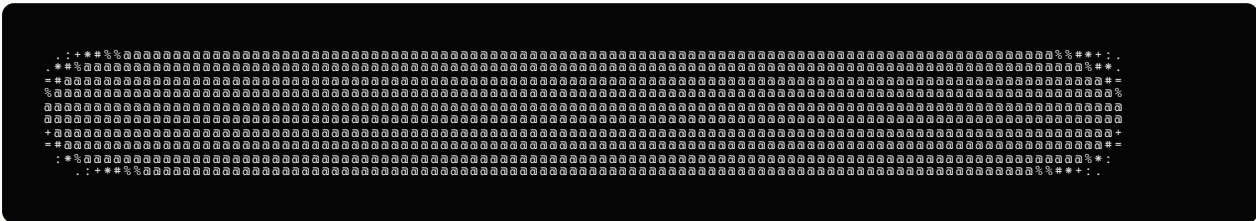

ARGI • Work Ethos Contact

Sticky floating pill header with backdrop-filter blur and dynamic active scroll spy indicators.

● COMPUTATIONAL AESTHETICS

Interactive ASCII Shading Engine

The signature background canvas converts classical imagery (*The Creation of Adam*) into dynamic high-performance ASCII density matrices.

ENGINE CONFIGURATION

Character Density:

. : - = + * # % @

Sampling Step:

6px x 11px grid resolution

Interactive Physics:

Dynamic mouse proximity
luminance displacement

Rendering Pipeline:

HTML5 2D Canvas with sub-pixel crisp alignment

MOTION & PHYSICS STANDARDS

Smooth Easing:

cubic-bezier(0.16, 1, 0.3, 1)

Hover Scale:

transform: scale(1.04)
translateY(-2px)

Scroll Engine:

Native hardware-accelerated
momentum interpolation

PRODUCTION QUALITY COMMITMENT

All deliverables authored under the ARGI Studio brand must adhere strictly to these token standards, typography constraints, and accessibility contrasts (WCAG AAA rating on all editorial text).
